FOOD SAFETY STATEMENT

- antibiotics and their residues -

The company "EU Poultry s.r.o.", hereby declare that from July 1, 2024 until today, analyzes were performed for the presence of RIL (residues of inhibitory substances) in our products and goods in the following amounts:

- We performed 2 examinations as part of self-control
- 6 examinations were carried out at the borders by the Border Inspection Service as part of the control of goods entering the EU from a third country
- 17 examinations were carried out by the local competent supervising veterinarians at the destinations for chilled and frozen goods

All analysis results were satisfactory.
