

Smart testimonial on EU Poultry

We , Smart Packaging Solutions , are a leading manufacturer of solid board packaging for the food industry. Smart is a division of the VPK Packaging Group , a Belgian family business with branches all over the world.

Smart focusses on export packaging for the poultry and meat industry which is an ideal packaging for frozen and fresh product.

Looking for new business opportunities we came in contact with EU Poultry in the summer of 2017.

EU Poultry was very much interested in our high end packaging solutions to match the quality of their products as they were expanding their export business rapidly.

We have been doing business with each other continuously since 2017.

EU Poultry is not just a customer , over the years they became a strong partner for SMART. We provide them with strong boxes to fulfill their packaging needs and they are a long term reliable partner for us. EU Poultry, as a well-known brand, has put us on the map in Slovakia and Eastern Europe.

We have a pleasant and constructive cooperation with EU Poultry , they think along with us , provide us with the necessary information we need to guarantee them a perfect service level and they are open to innovation. ‘ They do what they say and they say what they do ‘.

As they are continuously increasing their production volume and expanding their business we sincerely hope we can continue and expand our mutual business over the next years !

We wish them all the best !
